

Acceptance Testing

This document contains the acceptance testing plan for the BD25 Information System. It includes a range of test cases based on the system's key features. Each case is designed to check that the system works properly with correct inputs and handles errors when something goes wrong. The table below shows the feature being tested, what input was used, and what the expected outcome is. Both valid and invalid test cases are included.

Test Case ID	Feature	Test Description	Input	Expected Output	Actual Output	Pass / Fail
1.	Edit event	Test changing description of Draw!	Description: "Outdoor art event"	Message: "Event added" and event displayed on list	Event added	Pass
2.	Edit event	Test editing date of event	Date: "5/6/2025"	Message: "Event edited" and new event details displayed on list	Event edited	Pass
3.	Edit event	Test uploading new data	Name: "DRAW!"	Message: "Event cancelled" and event status changed to cancelled	Event cancelled	Pass
4.	View all events	Display a list of all events	Browse all available activities using next button	Events are shown in list / table format	Events are shown in list / table format	Pass
5.	Enter as Guest	Enter as guest user	Guest button	Redirected to limited dashboard view, with restricted access	Redirected to limited dashboard view, with restricted access	Pass
6.	Login	Login using DIGM credentials	Username: SM1 Password: 123	Redirected to DIGM dashboard	Redirected to DIGM dashboard	Pass
7.	View activity data	Display all data related to an activity	Event: "DRAW"	List of media files (e.g. DRAWimg1.jpg, DRAWaudio1.mp3) with labels displayed	List of media files (e.g. DRAWimg1.jpg, DRAWaudio1.mp3)	Pass

8.	Add DIG member	Add DIG member to system	Name: "HJay Jay" Role: "DIGM" Username: AC1	Message: "User added successfully" Appears in DIG list	User added successfully. Appears in DIG list	Pass
9.	Assign DIG member to activity	Assigns DIG members to events	Event: "DRAW!" Members: DIGM001, DIGM002	Message: "Members assigned", shown under event participants list	Message: "Members assigned", shown under event participants list	Pass
10.	Add new event	Try to create an event without entering a date	Name: "DRAW!" Date: Location: "Centenary Square" Description: "Music event"	Error message: "Event date is required" and form not submitted	Error message: "Event date is required" and form not submitted	Pass
11.	Assign DIG member to event	Assign a DIGM that doesn't exist in the system	Event: "DRAW!" Member ID: DIGM3000	Error message: "User not found. Please add DIGM to system first"	Error message: "User not found. Please add DIGM to system first"	Pass
12.	Login	Try logging in with invalid password	Username: SM1 Password: invalidpass123	Message: "Invalid credentials. Please try again."	Message: "Invalid password. Please try again."	Pass
13.	Login	Try logging in with invalid username	Username: 00 Password: 123	Message: "Invalid credentials. Please try again."	Message: "Invalid username. Please try again."	Pass
